

FOR IMMEDIATE RELEASE

Regen Ag Lab Now Offering BeCrop Test

Regen Ag Lab and Biome Makers' partnership expands biological soil analyses in North America.

(Davis, California – June 15, 2023) Regen Ag Lab announces a significant milestone in its partnership with Biome Makers, as the company proudly breaks ground on its state-of-the-art laboratory to accept BeCrop® samples. With the licensing of Biome Makers' cutting-edge BeCrop® technology, Regen Ag Lab offers customers an unparalleled level of insight into their soil ecosystems including crucial factors such as nutrient cycling and mobilization, disease risk assessment, and biodiversity assessment.

The integration of BeCrop® technology into Regen Ag Lab's repertoire of services represents a transformative leap forward in the field of soil analysis. Moreover, Regen Ag Lab is committed to ensuring that farmers and industry professionals have convenient access to cutting-edge testing services. In line with this commitment, Regen Ag Lab is expanding its physical presence to accommodate the surge in demand for its new offerings. This expansion will include additional laboratory space, advanced equipment, and an expert team of scientists dedicated to delivering accurate and timely results.

"Our partnership with Biome Makers has been nothing short of transformative," said Lance Gunderson, Owner, Regen Ag Lab. "Together, we are reshaping the landscape of biological soil analysis by unlocking the immense potential of the soil microbiome. The opening of our lab for BeCrop® testing signifies a significant step forward in our joint mission to provide farmers and agronomists with invaluable insights that drive sustainable, regenerative agriculture."

Regen Ag Lab and Biome Makers invite farmers, agronomists, and agricultural stakeholders to take advantage of this groundbreaking partnership. "By harnessing the power of BeCrop® technology, we can work together to unlock the true potential of your soil and pave the way for a more sustainable and prosperous future in soil health and agriculture," states Adrian Ferrero, co-founder, and CEO at Biome Makers.
